

AMC China Decarbonization 2060

In September 2020, Xi Jinping formally announced his goal of carbon neutrality by 2060. This is the first time China has recognized the need to achieve zero CO₂ emissions by mid-century.

Strategy

- It focuses on decarbonizing China in a holistic way.
- A structural theme aimed at solving one of China's most crucial problems impacting the economy and demography: climate change.

Our specificities:

- China's first global decarbonization strategy
- Exposure to world leaders in green technologies
- Strong decorrelation with world markets
- More than 60 executive meetings in China per year and weekly analyst meetings

Strategy parameters

GLOBAL EMERGENCY	China is the world's largest emitter of greenhouse gases (~30% of global CO ₂ emissions) The world cannot meet its climate challenges without China
MAJOR INVESTMENTS	China will need to invest over 30,000 billion USD to achieve this goal
LONG-TERM THEME	China's goal of carbon neutrality by 2060
STATE SUPPORT	Supported by the 14th Five-Year Plan, the 20th Party Congress and the 3rd Plenum
WORLD LEADER	China is the world leader in green industry
SUSTAINABLE APPROACH	The strategy invests in Chinese companies with low environmental footprints that provide decarbonization solutions. The portfolio is aligned with the objectives of the Paris agreements (limiting global warming to 2°C).

Sub-themes: a holistic approach to decarbonization
